SAGAR AANKALAN – Ranking of Indian Ports for 2023 – 24

The Sagar Aankalan - Logistics Port Performance Index (LPPI), launched on February 27, 2025, by Ministry of Ports, Shipping and Waterways, aligns with the PM Gati Shakti National Master Plan and National Logistics Policy to benchmark port performance, enhance efficiency, and strengthen India's trade connectivity.

2.   LPPI evaluates Major and Non-major ports under Bulk (Dry & Liquid) and Container categories, further segmented by cargo volume (Bulk Cargo < 5 Million Tonnes (MT) & Bulk Cargo ≥ 5 Million Tonnes (MT), and Container Cargo < 0.5 Million TEUs & Container Cargo ≥ 0.5 Million TEUs) in FY 2023-24.

3.   Key Performance Indicators include Cargo Handled, Average Turnaround Time, Idle time at Berth, Average Pre-Berthing Waiting Time, Average Container Dwell time, and Average Ship Berth Day Output, ensuring a transparent, data-driven assessment based on absolute performance and year-on-year improvement.

4.   The final ranking in each category and sub-category has been computed and presented below:
